

Lafayette Attorneys Tiger Pharr and Lindsay Meador Young Obtain Summary Judgment

Tiger Pharr and Lindsay Meador Young of the Firm's Lafayette Office successfully obtained a summary judgment in favor of their client, Site Engineering, Inc., where Plaintiffs alleged that Site failed to provide a proper groundwater analysis during the construction of their home. The court held that pursuant to its scope of work and contract, Site had no responsibility to test or drill the Plaintiffs' home foundation as deep as they contended. Further, after reviewing testimony from Plaintiffs' own expert that Site complied with the services that they were hired to perform in relation to ground water analysis, the court found that Site was not negligent in any way.
