From pre-suit through litigation, she provides ongoing analysis of potential liability and exposure, advising clients on successful legal strategies.

Vittoria assists clients by researching and remaining current in applicable law in their specific situations and industries. She has developed extensive knowledge in the law applicable to the medical, scientific, construction, consumer, and engineering fields and the litigation protocols specifically tailored to each. Vittoria is adept at managing discovery, preparing witnesses for depositions, drafting motions, dispositive motions, pleadings, and affidavits to further the litigation strategy established for each case.

Vittoria was born and raised in Naples, Italy. Her entire family still lives there, and she loves her annual return visits to Italy to see her family. Vittoria also enjoys cooking (not only Italian food) – experimenting with spontaneous recipes – as well as nature walks and hikes with her fiancée and her husky, Zeus.
